

 $Vertiv^{{}^{\rm TM}} VE Rack$ 

# Vertiv<sup>™</sup> VE Rack

The Vertiv VE Rack is an innovative enclosure system that integrates your computing hardware, power management technologies and peripherals in data centers and computer rooms. It offers superior design and flexibility, allowing optimal data center performance and easy installation.

# Free Standing Server Rack

The VE Series Rack from Vertiv provides cooling, power distribution, cable management, and environmental monitoring infrastructure for application in IT environment.

- Perforated doors for optimal front-to-rear air flow up to 75%.
- Tool-less mounting slots for vertical PDUs
- Loading capacity of up to 1600 kgs

VE rack from Vertiv is the ultimate solution designed and engineered for demanding data center environment.

To achieve optimum versatility within the server rack, users can set multiple depths throughout the rack by adjustable 19-inch mounting rails mounted on heavy duty side supports. Horizontally divided side panels provide ease of access and

convenient post-installation maintenance.

Over 75% perforations on front and rear door enable optimum air flow within the rack.

Flat-pack option enables savings up to 60% in the transport cost and warehouse space.

# **Vertiv VE Rack Features**

- Strong and durable nine-folded solid frame profile which can hold a static load of up to 1,600 kg
- 75% open high perforated doors for optimal air flow
- Convenient tool-less installation of cable and air flow management
- Internal and external battery configurations for optimized back up time management
- Fast deployment leveling feet
- Heavy duty caster wheels for easy movement

# You need a rack ready to go

Get what you need, when you need it:

- Enclosure height of 42U and 48U
- Width of 600 mm or 800 mm and Depth of 1100/1200 mm
- Other dimensions available on request
- Side panels
- Air flow management
- Cable management options
- Mounting accessories
- Standard Color RAL 7021 (Optional Color RAL 7035)

Other colors options, available on request.

# Excellent Rack Cooling Efficiency

- Optimal heat management with 75% perforation rate for both front and rear doors
- Optional blanking panels for air flow are available

# Enhanced Rack Installation Space Efficiency

- Solid steel frame with installation slots
- Rack static load capacity of 1,600 kg

## Enhanced Rack System Applicability In Data Centers

- Accessories available for cabling and air flow management
- Optional features for specific requirements in data centers available

## Increased Convenience In Installation and Maintenance

- Tool-less design for cable, air flow management, and PDU mounting for flexible and quick installation
- Low profile casters preconfigured for easy deployment and mobility
- Self-leveling feet for easy installation

# Increased Rack Adaptability and Expansibility

- Integral part of the total data center solution of Vertiv
- Highly adaptable and flexible to integrate power, cooling, and monitoring equipment
- Containment solutions available
- Supports a variety of rackbased SmartAisle (cold aisle / hot aisle) solutions

#### STANDARD INCLUSIONS

- Single flat front mesh door
- Double flat rear mesh doors
- Roof top with cable entry plates
- 2 pairs of side panels, top and bottom
- 4 x (19") EIA-310 vertical mounting rails
- 4 fast deploying leveling feet and 4 casters
- 2 x Vertical PDU / cable management tray ready for dual PDU mounting
- All rack panels are inherently grounded
- 50 sets of captive M6 nuts and M6 screws
- 1 set of Integrated baying kit
- Open bottom area (optional cover)

# **Vertiv VE Rack**

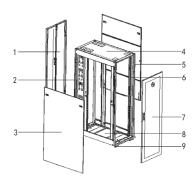

## 1 78% Open Perforated Rear Doors

Split rear door with Honeycomb perforation provide optimal performance of air flow.

# 2 PDU / Cable Management Tray

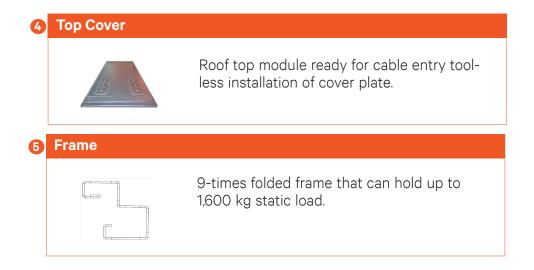

· E. : E. : E. : E. : E. : E	Allows flexible cabling in the rack for easy
	installation. Tool-less mounting of Rack PDU.

# **6** EIA310 19" Mounting Rails

Full depth adjustable EIA310 standard equipment mounting rails. The U markings are printed on both (front & rear) side on each EIA rails.

## **7** Front Door 78% Open Perforated Front Doors

Single front door with Honeycomb perforation provide optimal performance of air flow.

## **8** Bottom Panel (Optional)

3 pieces design, flexible to meet cable entry requirement. Selfgrounding to frame.

### 9 Caster & Leveling Feet

Heavy duty height adjustable leveling feets and casters provide 1,600 kg static load and 1,000 kg dynamic load.

#### (10) Convenient and Quick Baying

Intergated baying kit support baying of racks with side panels.

#### (1) All rack panels and doors are inherently grounded to frame
